

ROMAN CHERNYAVSKY

Graphic development for games

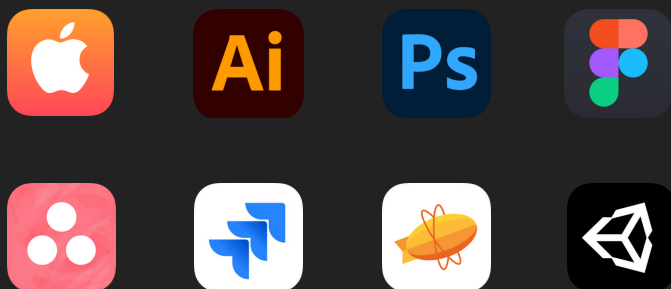

About me

Hi, I am Roman Chernyavsky, a graphic designer specialising in 2D, UX/UI and VFX. With a background in mobile games and startups, I bring over 9+ years of experience. Here to tackle your art challenges and project issues with creativity, I conduct thorough research for effective solutions. Adaptable to different project styles, I can create all assets for your mobile games and applications, excel at corporate identity development and effectively manage projects and teams. If you are looking for excellent design, look no further - together we will achieve outstanding results!
